A Coloring Journal for the Places You've Visited

PHASE 1 · PLANNING AND VISUAL DIRECTION · REVISED DELIVERY

1 · Revision notes and decisions	p. 2
2 · Style guide and cover direction	p. 5
3 · Six sample country pages	p. 11
4 · Facing-page preview	p. 17
5 · A Register of Colors: ten specimens	p. 18
6 · A Register of Colors: four-page density test	p. 20
7 · Page map, 288 pages	p. 24
8 · Front-matter text revisions	p. 27

PHASE 1 · REVISION

Our response to your revision request of 11 September: the style guide, six fully laid-out sample pages, ten specimen entries for A Register of Colors, the page map updated to 288 pages, and the front-matter text revised to match your decisions. Everything here builds on the Phase 1 Blueprint and is for your review; nothing is print-ready.

IN THIS DELIVERY

	FILE	WHAT IT IS
1	THE-WORLD-style-guide.pdf	Type and licenses, grid and margins, line weights, flags, maps, illustrations, captions, data formats, palette, cover direction.
2	THE-WORLD-sample-country-pages.pdf	Italy, Japan, United States, Brazil, Egypt and Australia on one page system, on simulated cream stock. A white "as printed" version is included.
3	THE-WORLD-spread-preview.pdf	Two country pages facing each other, to judge the binding margin. Still one country per page.
4	THE-WORLD-color-register-10-specimens.pdf	Ten specimen entries, covering the hardest flags, for approval before the other 185 are written.
5	THE-WORLD-color-register-density-test (3 files)	All 195 entries laid out on the real register pages to test whether four pages hold them.
6	Page map	The Blueprint page map updated with every settled decision: 288 pages, 18 signatures, for your approval.
7	Front-matter text revisions	Epigraph, Melville on the Departure page, copyright note, and the three essay paragraphs that the decisions changed.
8	Source package	Vector maps, flags and illustrations (SVG), fonts with their licenses, page templates (HTML/CSS) and the data table with sources. See the note on InDesign below.

About the source files. The final book is planned in InDesign. This revision was built without InDesign, so we are not supplying .indd or .idml files: we could not open and check them, and a file nobody has checked is not a real source. Instead you have the parts InDesign uses directly: every map, flag and illustration as a true vector SVG, the fonts, and a grid specified in millimetres frame by frame, ready for the InDesign template in the layout phase.

Already applied from the Decisions Log: five facts on every page; no country experience on the page; illustration rule (landmark first, officially designated animal named in a second sentence, nothing invented); flag dots in reading order; register cut to four pages, in plain language; 2025 reference year; metric first; American English; UN treatment of borders, with short notes.

DECISIONS WE NEED FROM YOU

QUESTION	OUR RECOMMENDATION
1 Flag dots in a black-only interior. Your example in the Blueprint shows the dots in color, but the interior is specified in black only, and a black dot cannot show a color.	Outline dots with the color name beneath (used on the samples). Printed color dots would mean four-color printing on every country page.
2 Name line when the own-language name is English (United States, Australia and others).	Show the formal name (<i>Commonwealth of Australia</i>), so the line is never empty and never repeats the title.
3 Transliteration style under non-Latin names: standard or spoken form (<i>Misr</i> or <i>Masr</i>), with or without diacritics.	The standard form of the official language, without diacritics. All non-Latin names then go to a native reader.
4 Brazil illustration. Christ the Redeemer, shown in your reference images, is licensed by the Archdiocese of Rio de Janeiro for commercial products.	Sugarloaf Mountain (on the sample), unless you want us to ask about a license.
5 Color register length. Four pages hold all 195 entries only at 8.5 pt with a strict length per entry (about 70 / 125 / 215 characters for simple / medium / complex flags). At 9 pt the register needs six pages.	Keep four pages at 8.5 pt with the length budget, and shorten Belize, Nepal and South Africa accordingly; or, if you prefer 9 pt, give the register six pages (the two notes pages plus one more spread).
6 The ten register specimens: pattern, wording and choice of flags.	Approve the pattern; any wording change you make becomes the rule for all 195.
7 Flags carrying religious inscriptions (Saudi Arabia, Iraq and others): an outline invites the reader to color the inscription.	Keep the inscription pre-printed rather than left open to color, and treat these entries with particular care.
8 Page map at 288 pages: the Blueprint structure plus bucket lists, Top Five, Favorite Memory and the expanded ledger, with two notes pages before the colophon.	Approve; Part III now opens on p. 28 so each continent opener is a true spread.
9 Names and grouping: UN short names (Türkiye, Czechia, Côte d'Ivoire), Holy See naming, UN M49 continents.	As set out on page 3 of the page map.
10 Cover: navy or Old Pink cloth; foil on the back cover (in your first brief, not in RFQ v2).	Navy with gold on front and spine; quote back-cover foil only if you want it.
11 Photo frame. The Blueprint sizes it for a 9 × 13 cm print, but a whole print (89 × 127 mm) does not fit on the page beside everything else.	A 90 × 64 mm frame that takes a 9 × 13 print cut in half, or an instant mini print, as on the samples.
12 Population source: one international source for all 195 countries (UN World Population Prospects) instead of national figures.	UN source: comparable everywhere, available for 2025, and covering the Holy See and Palestine.

WHAT WE STILL NEED FOR PRODUCTION

- Your approval of the decisions on page 2, of the page map and of the front-matter text revisions.
- Main sales market, and whether part of the run should go straight to a US fulfillment company (this has to be priced in the quotation).
- Exact address of the fulfillment warehouse in the Netherlands.
- Three comparable quotations on RFQ v2, then the choice between offset and print on demand.
- From the chosen printer: case and spine template, a bound blank dummy in the final materials (it settles the spine, estimated near 25 mm, and the weight, estimated 1.1–1.2 kg), cloth and foil swatches, and minimum foil line sizes.
- A native reader for roughly fifty non-Latin country names.

INVESTMENT ESTIMATE · THE FIGURES TO COLLECT

You asked for help estimating the investment. We will not quote a total before the inputs exist; this is the worksheet we will fill in together. Every figure will be marked as a quotation or an estimate, with its source.

COST LINE	WHERE THE FIGURE COMES FROM
1 Printing and binding at 1,000 / 1,500 / 3,000 copies	Printer quotations (RFQ v2)
2 Proofs, dummy, make-ready, foil dies, options (endpapers, head and tail bands, ribbon)	Printer quotations
3 Freight to the Netherlands; optional split delivery to the US	Quoted separately by printer or forwarder
4 Import duties and taxes	To verify with your customs/tax professional
5 Storage, pick and pack, shipping to the end customer	Fulfillment company rate card
6 Remaining production: illustration, text and data for 189 countries, register, layout, cover, prepress	Our quotation for the next phases
7 Native-reader proofing; final proofreading	Quotation
8 ISBN and barcode; marketplace or retailer fees and margins	Your registration agency; channel terms
9 Marketing and launch	Your budget; outside this order

NEXT PHASES TO QUOTE

Not part of the current order: illustration production. The Blueprint counts 585 drawings (195 vignettes, 195 maps, 195 flags); the samples show that maps and flags can be produced from verified geographic and flag data, so the hand-drawn work is mainly the 195 vignettes; research, text and verified data for the remaining 189 countries and their maps and flags; the other 185 register entries; continent openers, bucket lists and closing spreads; layout in InDesign by continent; cover and foil artwork on the printer's template; final production and liaison with the printer. Publishing and marketing support can be quoted separately if you want it.

STYLE GUIDE

Phase 1: planning and visual direction. Everything here is a proposal for your review. Nothing in this guide is a print-ready file, and the production values that depend on the printer (spine, board, cloth, foil, final margins) are marked provisional.

1 · PRINCIPLES

- An atlas first, a coloring book second.** The page should look finished before a single pencil touches it: generous white space, classical type, one consistent line.
- Built for coloring.** Every drawing is closed line art with no shading or grey, areas large enough for a colored pencil, and controlled detail. The interior prints in one color, black, on cream uncoated paper; all color comes from the reader.
- One system, 195 times.** Every country page uses the same frames in the same places. Variation comes only from the content: flag proportions, map shapes, the length of a name or a caption. The six sample pages were chosen to stress-test exactly that.
- Facts that hold.** One reference year (2025), one source per field for all 195 countries, United Nations treatment of borders, and short factual notes where a dispute affects a figure.

2 · WHAT THIS GUIDE COVERS

SECTION	STATUS
3 Typography and licenses	Proposed
4 Page grid and margins	Proposed; margins provisional until the printer's blank dummy
5 Line weights	Proposed; to confirm on the press proof on the actual stock
6 Flags and the color dots	Proposal requiring your decision (black-only interior)
7 Maps	Proposed
8 Illustrations and captions	Proposed
9 The five facts and the name line	Applies settled decisions; formats proposed
10 Palette and cover direction	Direction only, not a production cover

3 · TYPOGRAPHY

Two classical families, both under the SIL Open Font License 1.1: free for commercial print, embedding permitted, no per-copy fee. The license files travel with the source package and the fonts install directly in InDesign.

FAMILY	USE	LICENSE
Cormorant Garamond (Christian Thalmann)	Display: country names, section titles, cover	SIL OFL 1.1
EB Garamond (Georg Duffner, Octavio Pardo)	Text, facts, labels, captions, register	SIL OFL 1.1
Noto Serif JP / CJK, Noto Naskh Arabic and other Noto Serif scripts	Country names in their own script	SIL OFL 1.1

HIERARCHY (COUNTRY PAGE)

Country name
Cormorant Garamond SemiBold, 46 pt,
caps, +20 tracking

ITALY

Name in own language
EB Garamond Italic 17 pt; scripts 17–
19 pt; transliteration italic 13 pt

Italia 日本 *Nippon*

Labels
EB Garamond Medium 7 pt, caps, +160
tracking

COLOR THE FLAG · CAPITAL · MY VISIT

Fact values
EB Garamond 10 pt (9 pt when longer
than 26 characters)

302,068 km² (116,629 sq mi)

Caption
EB Garamond Italic 9 pt, centered, one
sentence per line

The Statue of Liberty, New York Harbor.
The bald eagle is the national bird.

Notes
EB Garamond Italic 7 pt, asterisk

* *Alaska and Hawaii are shown at different scales.*

A Register of Colors
EB Garamond 8.5/10.4 pt, colors in
small caps

JAPAN A WHITE flag with one RED circle in the exact middle.

Minimum size anywhere in the interior: 7 pt, except the 5.6 pt color names under the flag dots (all caps, tracked). These are the first thing to check on the press proof.

4 · PAGE GRID AND MARGINS

A4 portrait, 210 × 297 mm, one country per page. Two columns inside a live area of 176 × 267 mm: a 72 mm column for the flag and the facts, an 8 mm gutter, and a 96 mm column for the map and the illustration. The journal band closes every page at the same height: the taped photo frame (90 × 64 mm) and *My Visit* (date, three ruled lines, the VISITED stamp), as in the Blueprint.

Photo frame. The Blueprint sizes the frame for a standard 9 × 13 cm print. A whole 9 × 13 print (89 × 127 mm) cannot fit on the page beside the other elements, so the frame takes a 9 × 13 print cut in half, or an instant mini print, and says so in one small line.

YOUR DECISION

MARGIN	VALUE	
Inner (binding side)	20 mm	provisional
Outer	14 mm	provisional
Top / bottom	14 / 16 mm	provisional
Bleed	3 mm	nothing bleeds on country pages

The frames stay in the same position on left- and right-hand pages; only the margins swap, so the binding side always has the wider margin. A thread-sewn case binding opens well but not perfectly flat: we expect roughly 4 mm lost on each side of the fold, and the inner margin keeps every element clear of that. The real figure comes from the printer's blank dummy in the final materials; until then these margins are a working assumption, not a production setting.

See the facing-page preview supplied with the samples.

5 · LINE WEIGHTS

Plate frame, My Visit outer frame	
Hairlines, fact rules, inner frames	
Flag outer edge (0.30 mm)	
Flag inner lines (0.17 mm)	
Map coastline and border (0.30 mm)	
Illustration line (≈ 0.25–0.35 mm at size)	

Rule of thumb for colorable art: no enclosed area smaller than about 2 mm across unless it is meant to stay white (the stars on the US and Brazilian flags). Lines under 0.15 mm are avoided because they break up on uncoated stock.

Frame positions in millimetres, measured from the top-left of the live area. They map 1:1 onto *InDesign* frames.

6 · FLAGS

Every flag is drawn from its official construction at its official proportions (2:3 for Italy, 10:19 for the United States, 1:2 for Australia, 7:10 for Brazil), fitted inside a 72 × 48 mm box from the top left. Outlines are vector, derived from the construction drawings and checked against the official specification; for Australia, all six star positions were checked against the Flags Act 1953. Very small details (Brazil's 27 stars, the Egyptian eagle) are kept at the official size rather than enlarged.

THE COLOR DOTS: AN ISSUE TO DECIDE

YOUR DECISION

The Decisions Log settles colored dots beneath each flag, in the flag's reading order. But the interior is specified in one color, black. Printed in black only, a dot cannot show its color. Your example in the Blueprint (section 4) shows the dots printed in color. Three ways to keep the idea:

A · Outline dots with color names (recommended)  GREEN WHITE RED The reader colors the dots first and uses them as a key. Works in black, stays an instruction. Used on the six samples.	B · Names only GREEN · WHITE · RED Cleanest and shortest, but loses the visual "palette" moment the dots were chosen for.	C · Printed color dots  GREEN WHITE RED Needs four-color printing on every country page: a different, more expensive book. Not in the RFQ v2 specification.
--	---	---

Reading order (proposed, applied on the samples): the field and the stripes first, as you read them, left to right and top to bottom; then the emblem. Italy: green, white, red. Egypt: red, white, black, then gold for the eagle. Under the dots, one line points to A Register of Colors, where the arrangement is explained in words.

7 · MAPS

Source: Natural Earth 1:10m (public domain), drawn as vector outlines in an equal-area projection centered on each country, inside a 96 × 76 mm frame. Coastlines are generalized for the page (detail under about 0.1 mm is removed; islands under about 0.35 mm² at print size are dropped, with a note when this matters). Capitals are marked with a ringed dot and set in italics. Distant parts get labeled inset boxes at their own scale, with a note (Alaska and Hawaii; the Ryukyu Islands).

Borders. Natural Earth draws de facto lines. Where these differ from United Nations treatment, or where a dispute affects the area figure, the page carries a short factual note (Japan: southern Kuril Islands; Egypt: Halaib Triangle). Before print, each map is checked against the UN Geospatial Information Section maps.

8 · ILLUSTRATIONS AND CAPTIONS

Every illustration sits in the same double-ruled plate, 96 × 66 mm, like an engraved plate in an old atlas. The frame gives every subject the same weight on the page, whatever its shape, and keeps the composition tidy where a scene runs to the edge.

Subject rule (settled): a landmark of international standing where one exists; otherwise the officially designated national animal. Nothing is invented to fill space. Where a country has an officially designated animal and the landmark is drawn, the caption names the animal in a second short sentence.

Caption: one or two short sentences, one per line, 9 pt italic, centered. On the samples the longest is Brazil's (two lines); that is the maximum we recommend.

How the samples were made: AI-assisted line art for the subject only (never for maps, borders or flags), generated against a single style reference so all six share one line weight, then cleaned up and converted to true vector paths. AI drawings still contain architectural simplifications, and in production each one gets an illustrator's correction pass against photo references. The raster originals are kept for reference; the pages use the vector files.

Rights: landmarks under active image rights are avoided or cleared. Christ the Redeemer, shown in the original reference images, is licensed by the Archdiocese of Rio de Janeiro for commercial products; the Brazil sample therefore uses Sugarloaf Mountain until you decide whether to seek a license.

9 · THE FIVE FACTS AND THE NAME LINE

FIELD	FORMAT	SOURCE (PROPOSED, SAME FOR ALL 195)
Capital	English exonym; note where the seat of government differs	Constitutions / official sources
Population	One decimal, in millions ("59.1 million"); thousands below one million	UN World Population Prospects 2024, 1 July 2025
Language	Main or official language(s), at most two	Constitutions / official sources
Area	Whole km ² , square miles in parentheses	National mapping or statistics agency, edition valid in 2025
Currency	Name in American English, ISO code in parentheses	ISO 4217

Name line. The country's name in its own language and script, with a transliteration in italics for non-Latin scripts (日本 *Nippon*, مصر *Misr*). Where the own-language name is the English name (United States, Australia), we propose showing the formal name instead (*United States of America*, *Commonwealth of Australia*) so the line is never empty and never repeats the title. YOUR DECISION

The 2025 reference year appears once, on the copyright page, with the UN data credit required by its CC BY 3.0 IGO license.

10 · PALETTE AND COVER DIRECTION

The interior prints black on cream. The palette below is for the case and the jacketless cover only. Screen colors are approximate; cloth and foil are chosen from the printer's physical swatch books, and the foil is a metallic, not a printed ink.

Navy
cloth, option 1
#1f2a44

Old Pink
cloth, option 2 (direction only)
#c7a2a0

Gold
foil, front and spine
approx. #b8975a

Beige
endpapers / paper tone
#efe6d4

Dark grey
screen and marketing type
#3b3b3b

Old Pink cloth with gold: a second direction, not a confirmed choice.

Developed from your reference cover. The world map is coastlines only, generalized to about 0.5 mm, and the compass rose is redrawn as clean geometry. Fine foil detail fills in on cloth, so the printer confirms minimum line and gap sizes before the artwork is final.

Foil is shown on the front only. Back-cover foil appeared in your first requirements but is not in RFQ v2; tell us if you want it quoted as an option.

Spine: an estimated 25 mm, not drawn. The spine and board artwork are set from the printer's template and blank dummy.

A REGISTER OF COLORS · TEN SPECIMENS

For approval before the other 185 entries are written. Each entry follows the same pattern:

1. Background or overall layout first.
2. Then stripes or blocks, in the order you read them: left to right, top to bottom.
3. Then the emblem, from the biggest part to the smallest.
4. Directions are always as you look at the page: left, right, top, bottom, middle.

JAPAN A WHITE flag with one RED circle in the exact middle.

Why this one: The simplest case: one shape on a plain field. Sets the shortest entry length. (53 characters)

EGYPT Three equal stripes, top to bottom: RED, WHITE, BLACK. In the middle of the white stripe stands a GOLD eagle looking to your left. On its chest is a small shield with upright stripes, left to right: RED, WHITE, BLACK. Its claws hold a GOLD ribbon with the country's name in Arabic.

Why this one: Stripes plus an emblem inside a stripe; the emblem has its own small stripes, the opposite way round. (281 characters)

UNITED STATES Thirteen stripes, top to bottom, starting and ending with RED: seven RED and six WHITE, taking turns. In the top left corner, a BLUE rectangle as tall as the top seven stripes, holding 50 small WHITE stars in nine rows of six and five, taking turns.

Why this one: Counting: 13 stripes and 50 stars in alternating rows. Tests numbers in plain language. (249 characters)

BRAZIL GREEN, with a large YELLOW diamond. Inside the diamond, a BLUE circle crossed by a curved WHITE band, higher on the left than on the right, with the words ORDEM E PROGRESSO in GREEN. Twenty-seven small WHITE stars: one above the band, all the others below it.

Why this one: Shapes nested inside each other, a curved band with lettering, and stars of different sizes. (259 characters)

BELIZE ROYAL BLUE, with a narrow RED stripe along the top and the bottom. In the middle, a WHITE circle ringed by 50 GREEN leaves. Inside: a shield with tools in its two upper parts and, below, a sailing ship on a DARK BLUE sea under a LIGHT BLUE sky. Two shirtless men in WHITE trousers stand beside it, the left one holding an axe, the right one a paddle. A GREEN mahogany tree rises above, and a scroll below reads SUB UMBRA FLOREO.

Why this one: The most detailed flag in the book: a full coat of arms with people. Tests the upper limit of entry length. (428 characters)

NEPAL Not a rectangle: two triangles stacked one on the other, the top one smaller, both pointing to your right. **CRIMSON** inside, with a **BLUE** border all the way around. In the top triangle, a **WHITE** crescent moon lying on its back, with eight short rays rising from it; in the bottom triangle, a **WHITE** sun with twelve points.

Why this one: The only flag that is not a rectangle. Tests describing shape before color. (317 characters)

BHUTAN Split by a straight line from the bottom left corner to the top right corner: the top half **YELLOW**, the bottom half **ORANGE**. Across the line lies a **WHITE** dragon facing right, holding a jewel in each claw.

Why this one: A diagonal division plus a large, intricate animal crossing the dividing line. (202 characters)

SOUTH AFRICA A **GREEN** band shaped like a Y lying on its side: its two arms start at the left corners, meet in the middle and run on as one band to the right edge. The Y has thin **WHITE** edges on its outer sides and a thin **GOLD** edge on the inside. Inside the Y, on the left, a **BLACK** triangle. Above the Y, **RED**; below it, **BLUE**.

Why this one: Six colors, thin edging bands and a sideways Y. Tests describing narrow borders without flag terms. (309 characters)

SRI LANKA A **GOLD** border runs around the flag and also splits it into two parts. On the left, two upright stripes: **GREEN**, then **ORANGE**. On the right, a large **MAROON** panel with a **GOLD** lion facing left, a sword raised in its front paw, and a **GOLD** leaf in each corner.

Why this one: A frame that also divides the flag, two panels, and a figure with small corner details. (253 characters)

SAUDI ARABIA **GREEN**. Across the upper middle runs a line of **WHITE** Arabic writing, the declaration of faith; beneath it lies a **WHITE** sword pointing to your left.

Why this one: An inscription. Tests how we describe writing the reader should not alter. (146 characters)

A REGISTER OF COLORS

How to use this register: find the country, then color the flag in the order given. Left and right are as you look at the page. Colors are in small capitals.

AFGHANISTAN 140 This line stands in for an entry that has not been written yet; its length is estimated from the kind of flag, so that the four pages can be judged for density before the remaining entries are drafted and approved.

ALBANIA 30 This line stands in for an entry that has not been written yet; its length is estimated from the kind of flag, so that the four pages can be judged for density before the remaining entries are drafted and approved.

ALGERIA 80 This line stands in for an entry that has not been written yet; its length is estimated from the kind of flag, so that the.

238–239	2	South America closing spread: Notes from the Continent
240–241	2	Oceania opener: essay, country count, population
242–255	14	Oceania: 14 country pages, alphabetical (one country per page)
256–257	2	Oceania bucket list: 15 curated experiences
258–259	2	Oceania closing spread: Notes from the Continent
260	1	Blank
261	1	Part title: After the Journey
262–265	4	The Traveler's Ledger, expanded travel statistics
266–267	2	My Top Five
268–269	2	The Best Things
270–271	2	People Met Along the Way
272–273	2	Words Worth Keeping
274–275	2	Favorite Memory, single spread
276–277	2	Where I Go Next: the reader's list
278–281	4	A Register of Colors
282–285	4	Index of Countries
286–287	2	Notes
288	1	Colophon

OPEN POINTS

1. Color register: our density test shows four pages hold all 195 entries only at 8.5 pt with a length budget per entry; at 9 pt it needs six pages, which would replace the two notes pages and one more spread.
2. The Blueprint places the Departure page on p. 28 and Europe on p. 29, which would split the two-page continent opener across a turn. Here Part III begins on p. 28 so that each opener (essay left, title plate right) is a true spread.
3. Transcontinental countries follow UN M49 (Russia in Europe; Türkiye, Cyprus, Georgia, Armenia, Azerbaijan, Kazakhstan in Asia), explained on The World in Six Parts.
4. Country short names follow UN usage (Türkiye, Czechia, Côte d'Ivoire, Cabo Verde, Eswatini, Timor-Leste) with common American English for a few (United States, United Kingdom, Russia, Iran, Vietnam, Laos, Syria, South Korea, North Korea, Tanzania, Bolivia, Venezuela, Moldova, Micronesia, Palestine). The Holy See page is titled "Holy See", with Vatican City State for the territory and its figures.

FRONT MATTER · TEXT REVISIONS

The finished text in the Phase 1 Blueprint stays as written, except where a later decision changes what it describes. These are the only edits. Struck text is removed; highlighted text is new.

EPIGRAPH · PAGE 6

*A map shows the world as it is.
What follows is the world as you found it.*

Your original line, as chosen in the Blueprint, set alone in the upper third of the page with no attribution. Your note “Love it!” is your comment, not part of the line.

DEPARTURE · PAGE 27, THE SILENT PAGE BEFORE EUROPE

It is not down in any map; true places never are.
HERMAN MELVILLE, MOBY-DICK, 1851

The Melville quotation moves here from the epigraph page, with the compass rose and nothing else. Public domain.

COPYRIGHT PAGE · PAGE 4

BLUEPRINT

Borders are shown as generally recognized at the time of printing, and the publisher takes no position on territories under dispute. Figures for population and area are approximate and current to 2026.

Printed on FSC-certified 100 gsm cream Biotop, an uncoated paper chosen for its response to pencil.

The rest of the copyright page is unchanged.

REVISED

Borders follow United Nations practice. Where a dispute affects a country’s figures, a short note in small type on that page explains it. The publisher takes no position on territories under dispute. All figures refer to 2025. Population figures are United Nations estimates for 1 July 2025, rounded (United Nations, Department of Economic and Social Affairs, Population Division, World Population Prospects 2024, licensed under CC BY 3.0 IGO). Areas are official national figures.

Printed on FSC-certified 100 gsm cream uncoated paper, chosen for its response to pencil. (The paper’s name goes in once the printer confirms Biotop or an equivalent.)

THE SYMBOLS OF THIS BOOK · PAGE 19

Five fact icons instead of six (capital, population, language, area, currency), plus the stamp. The national animal is no longer a fact line: it is named in the caption where one is officially designated.

BEFORE YOU SET OUT · PAGES 9–12

Three paragraphs describe things that have since changed. Everything else in the essay stands.

PARAGRAPH 3 · BLUEPRINT

Each one carries the same things: the country's name in English and in its own language, its outline, its flag drawn as an open line, a short register of facts, and, at the foot of the page, two spaces that belong entirely to you.

ON COLORING · BLUEPRINT

The flags are printed as outlines, and their true colors are listed at the back of the book, in words rather than in numbers, so that nothing interrupts the page. Colored pencil suits this paper best. Biotop is uncoated and slightly warm, and it takes graphite and pencil beautifully...

ON THE OTHER PAGES · BLUEPRINT

Near the front there is a map of the world to color as you go, a running list of every country you have visited, and a hundred numbered lines for the places you intend to reach. At the close of each continent there is room for the notes that belong to no single country, which is where the long train journeys and the difficult borders tend to end up. And at the back there is a ledger: your totals, your best meal, the strangers whose names you never learned, the words you brought home from other languages.

REVISED

Each one carries the same things: the country's name in English and in its own language, its outline, its flag drawn as an open line, a short register of facts, a drawing of what the country is best known for, and, at the foot of the page, two spaces that belong entirely to you.

REVISED

The flags are printed as outlines. Beneath each one, a row of small circles names its colors in the order they appear, and at the back of the book A Register of Colors explains, in plain words, which part takes which color. Colored pencil suits this paper best. It is uncoated and slightly warm, and it takes graphite and pencil beautifully...

REVISED

Near the front there is a map of the world to color as you go and a running list of every country you have visited. Each continent closes with fifteen experiences worth the journey, a page to mark what you achieved there, and room for the notes that belong to no single country, which is where the long train journeys and the difficult borders tend to end up. And at the back there is a ledger: your totals, your top fives, your best meal, the strangers whose names you never learned, the words you brought home from other languages, one favorite memory, and the places you mean to go next.

CONTENTS AND HOW TO USE THIS JOURNAL

Contents (pp. 7–8) takes its page numbers from the revised page map: Europe now opens on p. 28 and Oceania closes on p. 259.

How to Use This Journal (pp. 13–14) annotates one of the approved sample pages, including the color circles under the flag and the caption.
